

53rd Street Music

Melody Stang Bio

Music has always been a part of my life, and I began taking formal training in piano at the age of five until completing my Grade 8 RCM. Then I moved my focus to learning guitar when I was fifteen, as well as many different instruments in High School Band. I started writing my own original music and went on to complete my Music Diploma at Red Deer

College. I continue to develop my skills through many different projects and am very active in the Red Deer music scene; playing in several bands, special concert series, and as a singer/songwriter.

For the past 6 years I have been teaching lessons, working with young and mature students alike (7+). I bring a lot of energy to my Piano and Guitar classes and have a wide knowledge of new Pop, Rock, Indie/Alt music, as well as 70's Soft Rock – artists like Fleetwood Mac and Joni Mitchell are my fav's. Lessons are tailored to the student's needs and their enjoyment is paramount. The main focus is on a broad curriculum that gives students instrument practice as well as essential theory and technique that is relevant to their own style and goals. If you have ever wanted to take up a new instrument or continue developing your skills, I would look forward to sharing my love and excitement for music.
